

**McKNIGHT BRAIN**  
**RESEARCH FOUNDATION**  
*Preserving memory, enhancing life*

**17<sup>th</sup> Annual McKnight Brain Research Foundation  
Inter-Institutional Meeting**

On Thursday evening attendees will board buses and for a quick ride to Tohono Chul Park, Tucson's charming crossroads of nature, art and culture for dinner and an evening to embrace the authentic beauty of the Sonoran Desert. Deemed "One of the World's Ten Best Botanical Gardens" by Travel + Leisure Magazine, for dinner and exploration of

the gardens and art gallery. In addition to its beautiful gardens, this 49-acre urban oasis offers various art and garden exhibits to reveal the unique qualities of the Sonoran region and renew a deep appreciation for the treasures of the desert. The park is easy to traverse and handicapped accessible paths meander throughout the grounds with surprises and delights at every turn. The park includes 11 gardens, 7 galleries and 3 nature trails.
